

TOGETHER WE GROW AND LEARN

Phonics Policy

Date approved: - Autumn 2023

Date to be reviewed: - Autumn 2024

Governing Body Committee: - ESB

Intent

Phonics is an important tool to develop reading fluency. A multi-sensory approach to phonics teaches pupils that the letters they see written on a page are part of a code that represents the sounds of spoken language, and provides them with the tools to understand that code. With these skills, most children develop into fluent readers who are able to quickly recognise familiar words and easily sound out new words they encounter. Phonics also allows young readers to develop their reading comprehension as, with practice, pupils' decoding skills become so automatic that they are able to concentrate on the overall meaning of what they are reading. The ability to understand how words are formed, and to break them down into individual sounds, then helps children with spelling and writing.

Implementation

FS1 children have 4 phonics lessons a week. Children in FS2 and Y1 receive a daily phonics lesson. From Y2 children move onto the GPS syllabus. The following is a guide to progression in school, however it is recognised young children vary in speed at acquiring phonic knowledge.

Little Acorns and Foundation 1

Phase 1 (Letters and Sounds) which covers:-

- general sound discrimination (environmental, instrumental, body percussion),
- rhythm and rhyme,
- alliteration,
- voice sounds
- oral blending and segmenting.

Foundation 2

- Introduce Phase 2
- Introduce Phase 3

Children will learn how to put sound buttons and lines to indicate phonemes which are single letters, digraphs (two letters) and trigraphs (three letters). After a daily phonics lesson, children will access high quality provision which involves quality writing, tricky words, fine motor and reading activities.

Year 1

- Recap Phase 3
- Introduce Phase 4
- Introduce Phase 5

Children will be expected to sound button and line real and 'alien' words in a variety of ways throughout the year. Children will also be taught:-

- To 'wave' ~ adjacent consonants (Phase 4) e.g. cl, spl, str etc.
- To chunk longer words e.g. bee/hive
- To 'wobble 'til it works' to make a real word sound right e.g. f-or-e-s-t = forest, p-er-s-o-n = person.

Year 2 and Beyond

Y2 children recap a variety of phonemes in a 'quick dash' at the beginning of each GPS lesson. They also sound button and line a Rainbow Sheet each week so that they consolidate their phonic learning. All teachers ensure children are using their phonics knowledge when they are reading and writing. Any children who are significantly behind EXS in reading from Y2 onwards, are targeted for additional support using the Reading & Phonics Intervention Pathway (see Appendix.3). This could be in the form of phonics reinforcement, sight reading of common words or extra 1:1 reading.

Tricky Words

Children are explicitly taught 'tricky words', which cannot be decoded, weekly during phonics lessons. It is important that children can recall these words automatically so that their reading can flow appropriately.

Impact

Teachers formatively assess children's progress in phonics throughout lessons. Summative assessments take place half-termly to inform Gap Analysis updates and termly Pupil Progress Reviews.

At the end of FS1, EYFS teachers identify children who have current gaps in their Phase 1 phonics. Upon entry to FS2, retention of previous oral segmenting and blending skills will be assessed within the National Baseline Assessment, within the first three weeks of school to allow teachers to identify any gaps that have appeared.

At the end of each phonics phase, FS2 children are assessed by attempting to read 20 real and 'alien' words. They will be encouraged to draw sound buttons and lines as they say the sounds. Any FS2 children not yet able to access Phase 3 by the Summer Term will be assessed using the in-depth Phase 2 assessment.

Y1 children are assessed every half term by attempting to read 40 real and 'alien' words from Phases 2 to 5. This data informs teachers of any children who need to join a phonics pre-teach group, 3 times a week.

Y2 children who have not previously passed the phonics check are assessed each half term by attempting to read 40 real and 'alien' words from Phases 2 to 5. This data informs teachers of any children who need to join a phonics pre-teach group, 3 times a week.

From Y3 to Y6, any children who are assessed as being within Bottom 5% for their phonics knowledge are monitored using in-depth assessment tools to identify specific gaps.

Phonics and Tricky Word Intervention Folders are used for any children who are struggling with Phases 2, 3 and 5. The folders give children the opportunity for 1:1 support using the following format:

- Match - children select a phoneme one at a time, which the adult identifies for them, they then repeat the phoneme then match it on the baseboard.
- Find - the adult asks the child to find a certain phoneme, repeat it's sound, then match as before.
- Read - children read across the baseboard
- Phoneme Tracker - there is a tracker after every 2 Match, Find, Read (MFR) cards. These enable children to practice recalling phonemes at speed to embed them. These can also be sent home, as children know the phonemes but are working on quick recall.
- Roll and Read Game - for any child that needs even more practice in a fun way of learning.

The Phonics Lead, alongside the Senior Leadership Team, is responsible for keeping an overview of the standard of children's work and for the quality of teaching in phonics. The work of the Phonic Lead also involves; supporting colleagues, being informed about current developments and providing a strategic lead and direction for the subject in the school. The Phonics Lead and SLT carry out a number of Quality Assurance activities each term including; lesson observations, work scrutiny, planning scrutiny, pupil questioning and data analysis in order to indicate current performance and identify critical issues and next steps for improvement.
